PSC APPROVES SEWER APPLICATION

Jefferson City (August 13, 2002)---The Missouri Public Service Commission has approved an application authorizing the Timber Creek Sewer Company to construct, own, operate and maintain a sewer system providing sewer service in an unincorporated area of Platte County near Platte City. The proposed area is an expansion of the Timber Creek Sewer Company's current certificated area.

In a memorandum filed with the Commission, the PSC Staff recommended the application be approved. Staff concluded that there is a need for the service that Timber Creek Sewer Company proposes to provide. Staff indicated that Timber Creek Sewer Company has the technical, managerial, and financial capacities needed to provide sewer service to the proposed service area. Timber Creek Sewer Company charges its sewer customers a flat rate of \$16.50 a month. That rate will be applied to customers in the new service area.

The Commission's order approving the application states: "Based on the application, and the Recommendation and Memorandum of Staff, the Commission will approve Timber Creek's application."
